## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3653

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1, 2 and 5-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kiss in view of Chan '206 and Frank.

Kiss teaches in combination a display board for displaying collectible articles (dolls) where the board includes at least one aperture for attaching the article to the board for display purposes (see Figures 1 and 2) via a clip (see Figure 2A) to grip the article where the clip comprises a base portion 24, means to grip 22 and a press fit portion 26 with a diameter larger than the diameter of the aperture in the board. Kiss fails to teach the collectible article being a table dispenser. Kiss also fails to show a spring disposed between the press fit portion and the base portion.

Chan '206 teaches a tablet dispenser as claimed and commonly known as a PEZ dispenser which is a collectible article among some individuals (see Figures 1-4).

Note particularly in Figure 4 the front wall of the tablet dispenser includes a forwardly protruding portion (un-numbered) extending the vertical length of the housing from the base to the dispensing end.

It would have been obvious to one of ordinary skill in the art to employ the combination of Kiss to provide a display board for the collectible tablet dispensers of Chan '206.

Art Unit: 3653

Frank teaches providing the clip employed to secure an article to a board member with a spring comprising an arcuate member 34 with a pair of ends adapted to contact the board and includes a pair of reliefs (in the area of 36 in Figure 2).

In view of Frank, it would have been obvious to one of ordinary skill in the art to provide the clip of Kiss with a spring. This would provide the advantage of providing a stable and secure attachment of the clip to the display board.

3. Claims 3, 4 and 9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. Claims 10 and 11 are allowed.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Copell and Kalbow et al are cited to show various arrangements of display boards for articles. Kelley is cited to show a press fit portion for securing an item to a support comprising a plurality of fins. Sternberg, Hinterreiter '442, Suda et al, Konig '239 and Hoke are cited to show various tablet dispenser arrangements.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David H Bollinger whose telephone number is 703-308-1113. The examiner can normally be reached on Monday through Friday from 9:00 am to 5:00 pm.
